

**STOP PRIVATE
JET EXPANSION**
at **Hanscom** or **Anywhere**

Sept 19th webinar (7pm)

Campaign to Stop Private Jet Expansion at Hanscom or Anywhere (SPJE):

What We've Achieved to date & What's Next

[REGISTER NOW!](#)

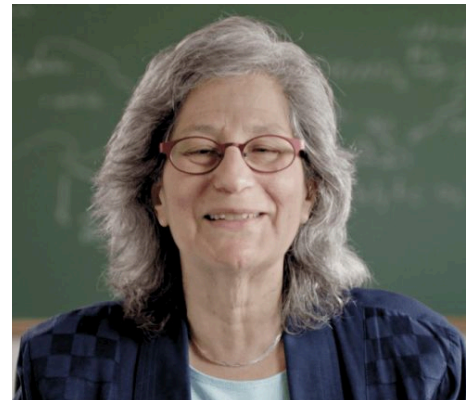

With Special Remarks by Susan Solomon

MIT professor, Nobel Prize recipient, and author of

Solvable: How We Healed the Earth, and How We Can Do It Again

About Susan Solomon: Susan Solomon is an atmospheric chemistry professor at MIT and author of the book ***Solvable: How We Healed the Earth, and How We Can Do It Again***, published in June 2024. Solomon is well-known for her pioneering work on the Antarctic ozone layer and played a crucial role in repairing the ozone hole. She is founding director of the MIT Environmental Solutions Initiative, and she co-led the Intergovernmental Panel on Climate Change (IPCC) Working Group I which won the 2007 Nobel Peace Prize.
